

European Technical Group

Seoul Fisuel Report

3 Strategic developments
Inline with the updated guidelines for WGs

To extend the present scope:
low voltage electrical installations in dwellings
to the electrical installations as :

- Services;
- Commerciaux locaux;
- Small industries;

To convince several countries around the world, to impose in political agenda, the importance of safety of users of electricity :

- Make a survey on the economical costs of insafety;
- Promote classification of energetic efficiency in dwellings (imposed by European directives).

To extend the scope of the WGE to new technological areas such as:

- The load installations of electrical vehicles
- The facilities of renewable energy

Fédération Internationale pour la Sécurité des Usagers de l'Électricité
International Federation for the Safety of Electricity Users
Federacion Internacional para la Seguridad de los Usuarios de la Electricidad

THANK YOU

MERCI - 감사합니다
