» IV . Performance

» V . Suggestion

※ ESMS : Energy Safety Management System

A large, light blue, semi-transparent globe with a grid of latitude and longitude lines, serving as a background for the central text.

I

Introduction

I . Introduction of ESMS in Korea

To Prevent the possible hazards caused by electricity & gas

A large, light blue, semi-transparent globe with a grid of latitude and longitude lines, serving as a background for the slide.

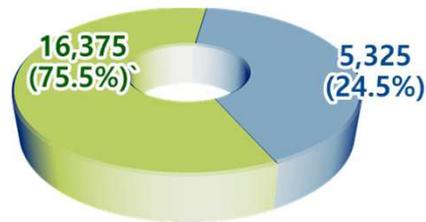

I Present Status

II. Present Status in Korea

A. Gas Consumption and Target of Gas Safety Management

Households using Gas

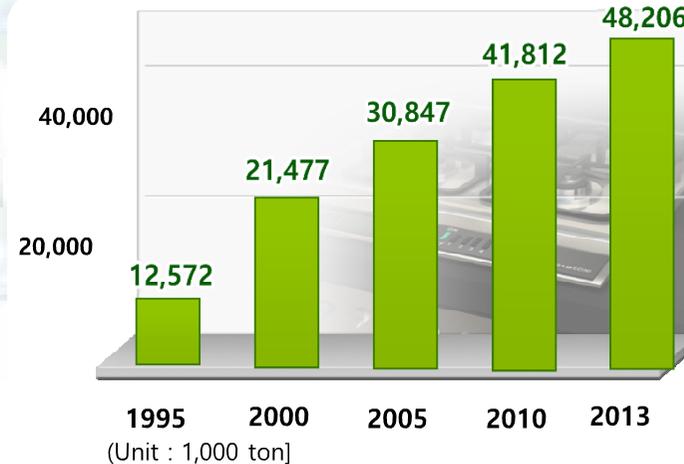

Number of Households : 21,700

(Unit : 1,000 Household)

■ Natural Gas
 ■ LPG

Gas Consumption

Target of Gas Safety Management

Target on Gas Safety Management : 274,900 Unit

Natural Gas Facility

96,283 Unit (35.0%)
 (Pipe-Line: 252,000km)

LPG Facility

178,187 Unit (60.2%)

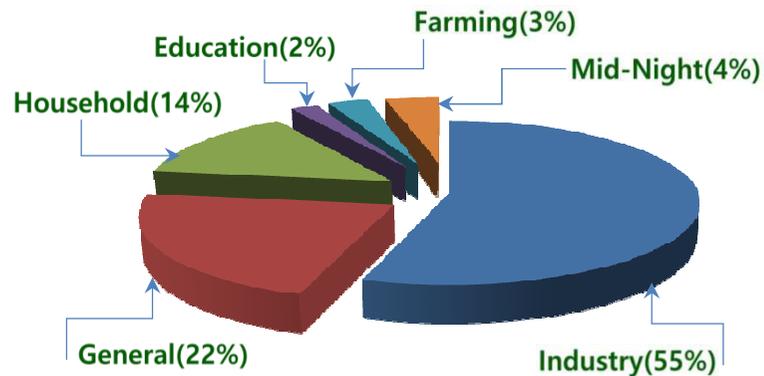

High Pressure Gas Facility

13,233 Unit (4.8%)

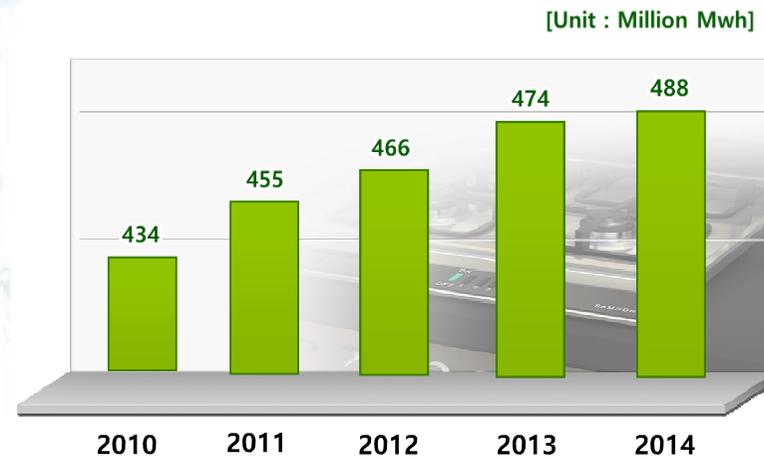

II. Present Status in Korea

B. Electricity Consumption and Target of Safety Management

Electricity Consumption

Electric Power Consumption

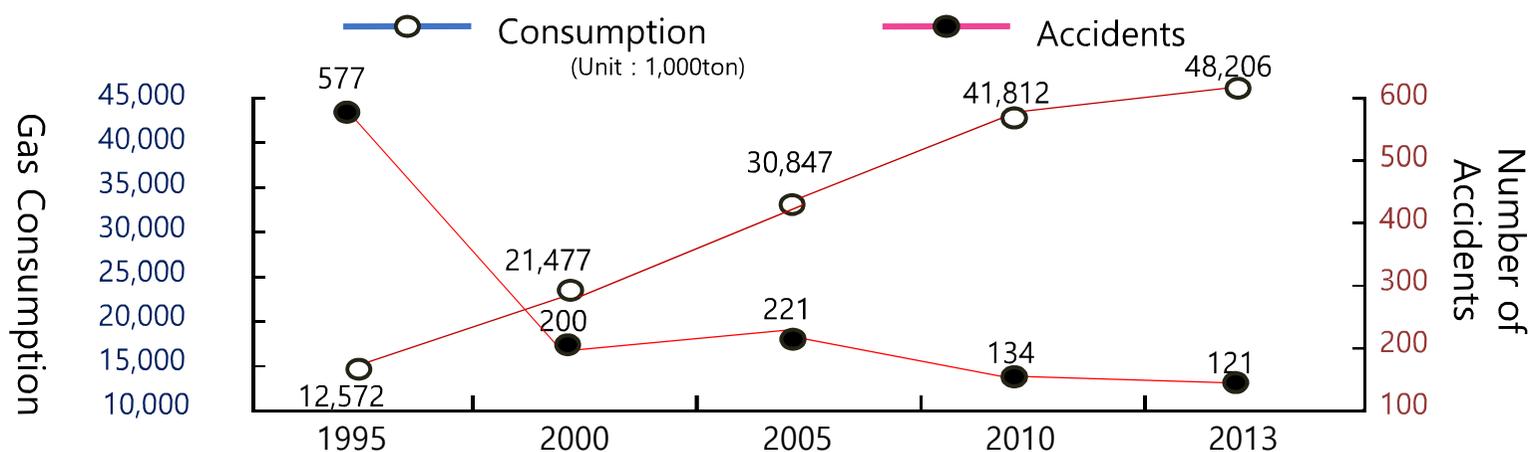

Target of Electrical Safety Management

Business Use	Private Use	General Use
Power Plant, Substation, Transmission Line	Exceed 600V or Over 75kW with under 600V	Below 600V & 75kW

II. Present Status in Korea

C. Statistics on Gas Accidents in Korea

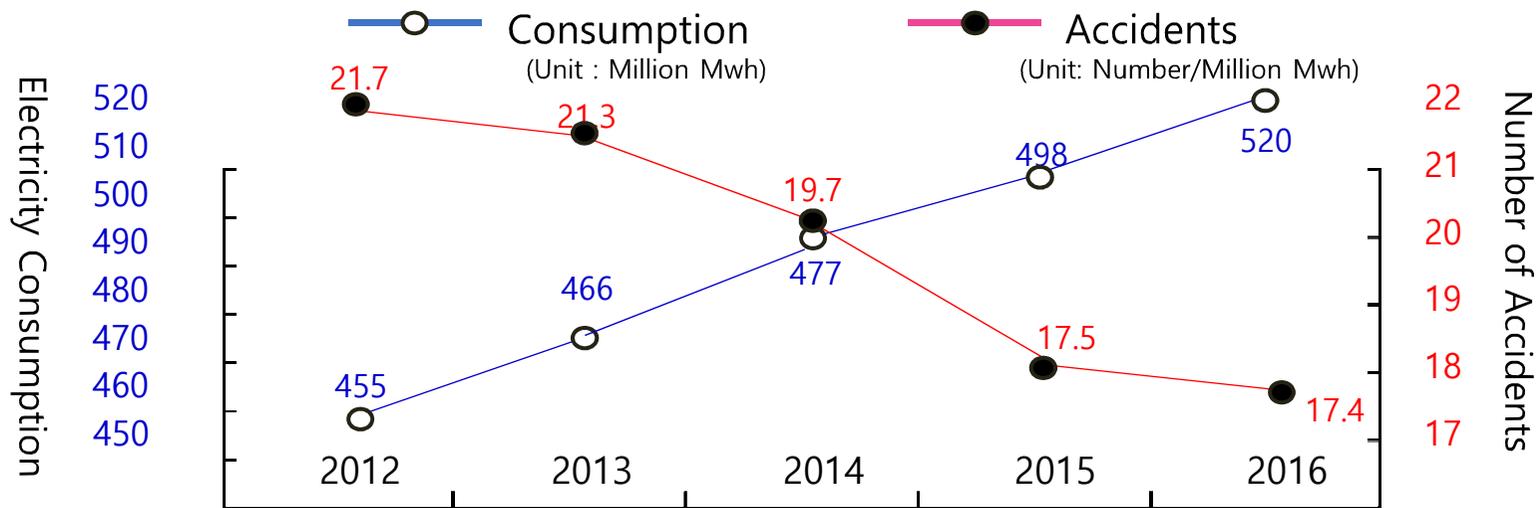

Reduction of Gas Accidents : 79%
Year 1995 : 577 → **Year 2013 : 121**
 Expansion of KGS Organization
 Supply of Gas Inspection Appliance
 Public Relation on Gas Safety

**Achieve the World Top Level
 Gas Safety Management Performance**
 Damage for Humans
 Per 1,000,000 Households using Gas
Korea : 6.8
 UK : 13.7 Italy : 21.2

II. Present Status in Korea

D. Statistics on Electricity Accidents in Korea

**Reduction of Electrical
Fire Accidents : 22%**

Year 2010 → **Year 2014**
21.8 → **17**

Securing & Cultivating Safety Experts
Conducting Safety Check-Up
Extension Public Relation
Accident Investigation

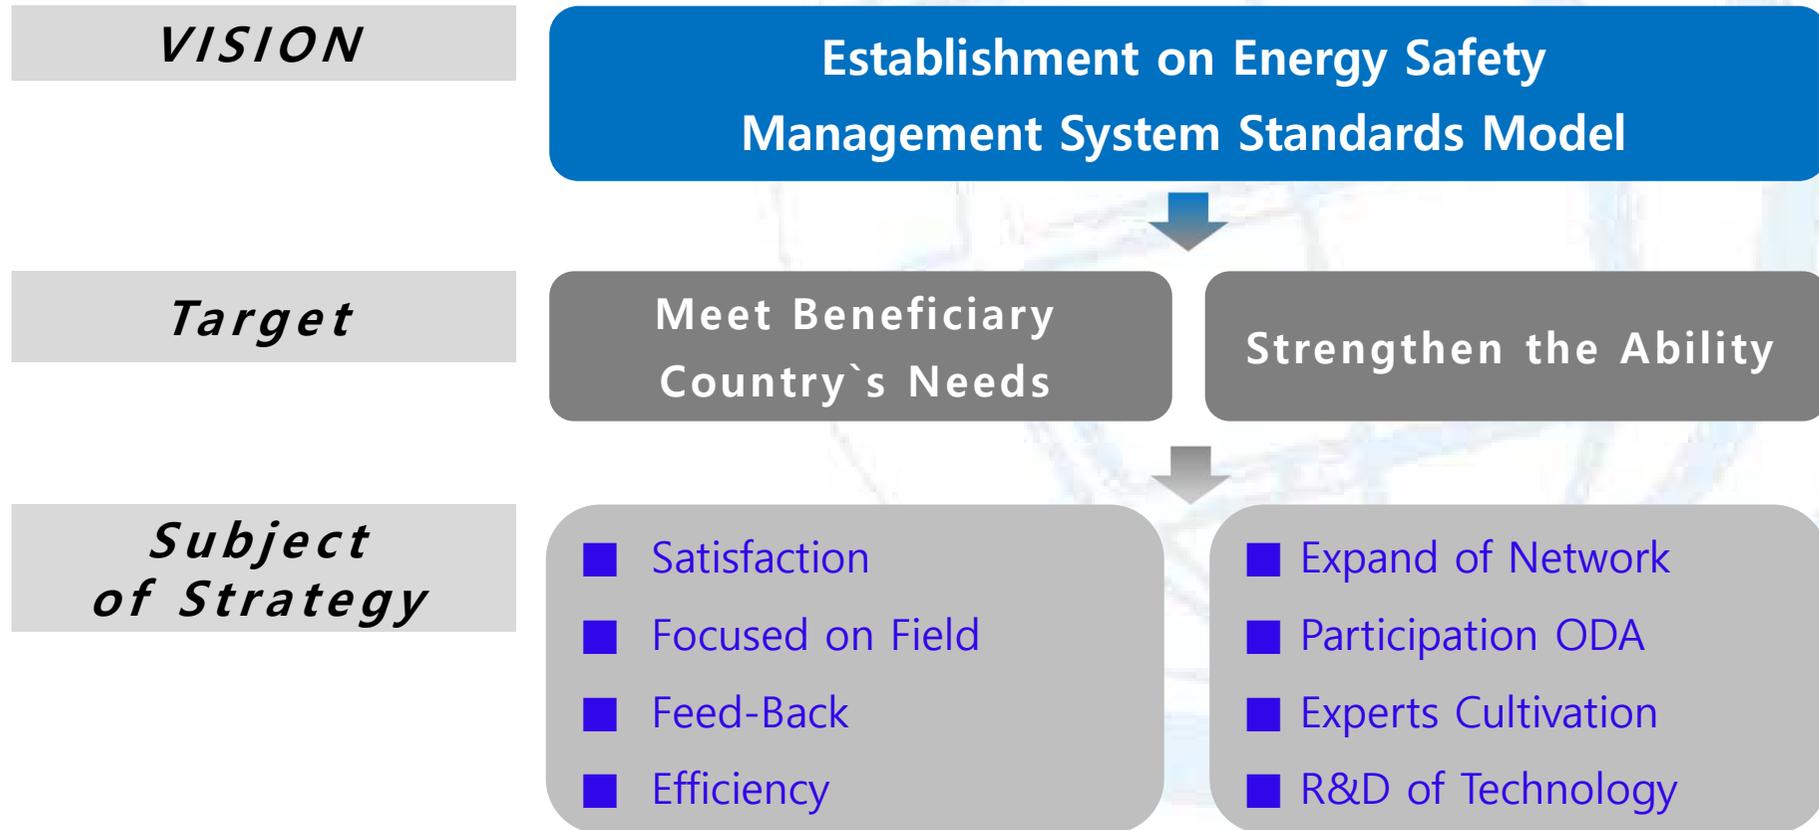

A blue square containing the Roman numeral "III" in white, followed by the word "Strategy" in a bold, black, sans-serif font. A horizontal blue line is positioned below the text.

III Strategy

III. Strategy

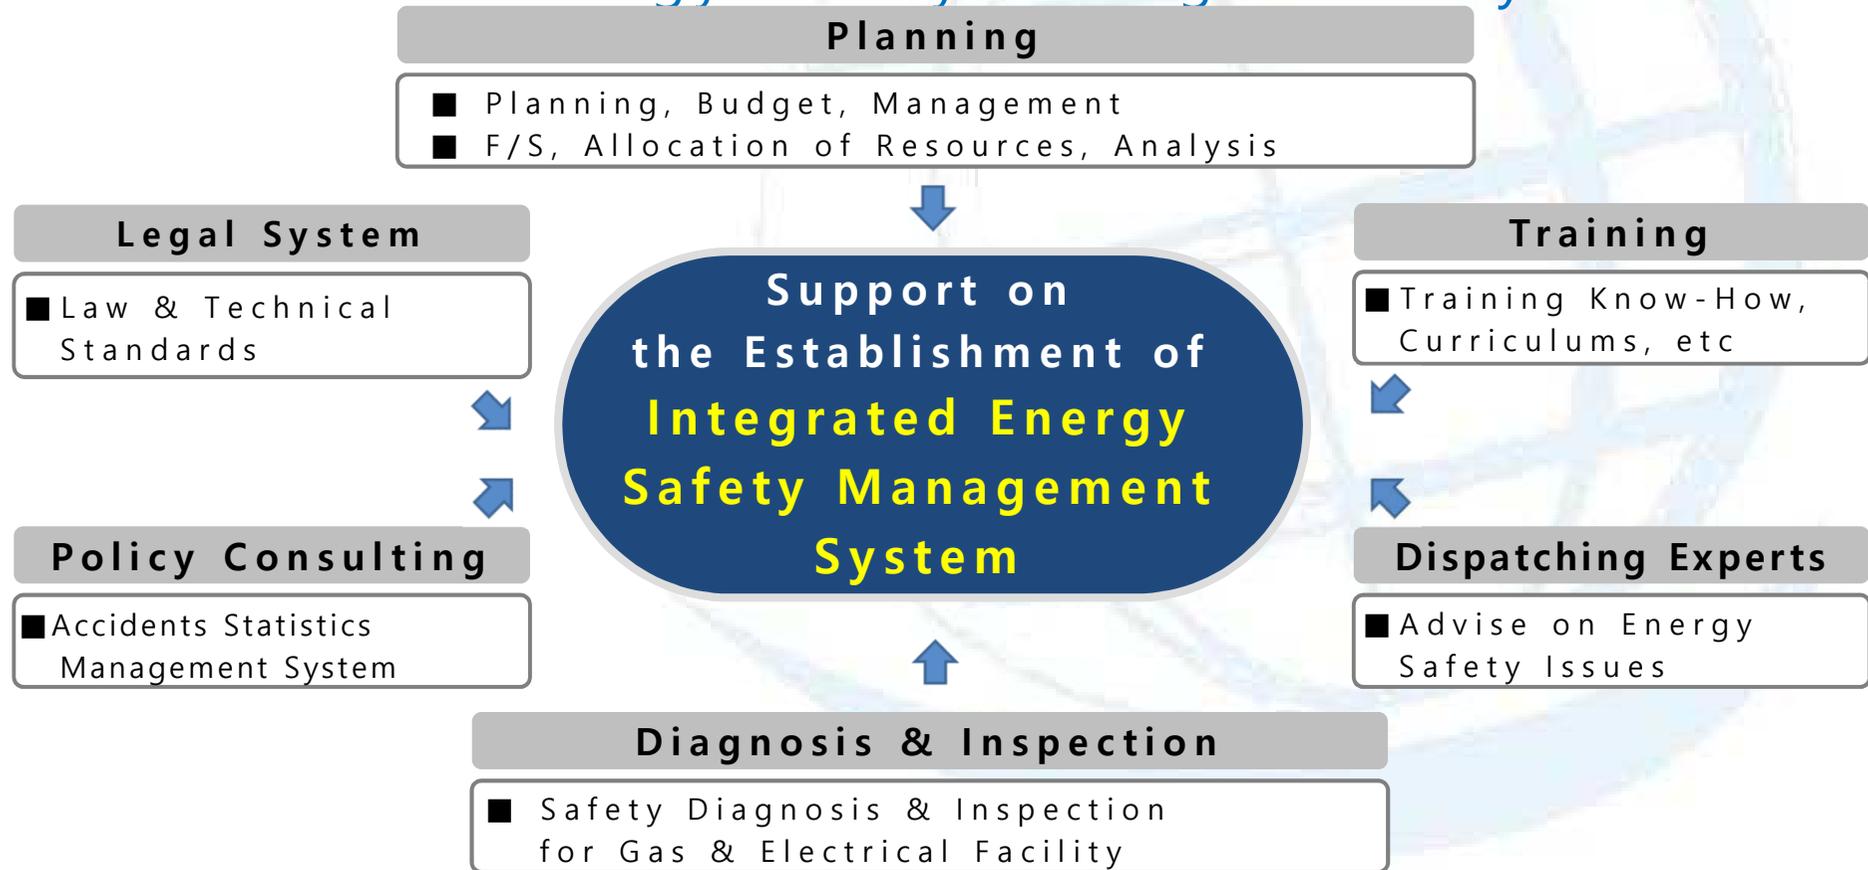

Enforcement of Korea **National Brand**

Establishment of **Global Energy Safety Management Model**

III. Strategy

Sharing Developing Experience of Korea Energy Safety Management System

III. Strategy

Enhancement on Efficiency & Performance

- ✓ Expanding the Support of Energy Safety Management System Model
 - ✓ Decreasing the Number of Gas & Electrical Accidents
- ✓ Developing the Gas & Electricity Industry in the Beneficiary Country

A large, light blue, semi-transparent globe with a grid pattern is centered in the background of the slide.

IV

Performance

IV. Performance

Improvement of the Level on Energy Safety Contribution to Gas & Electricity Industry Development

Operation of Sustainable & Independent Energy Safety Management System

MOU on cooperation of Energy Safety Management

- Vietnam ISEA(Gas Safety)
- Indonesia MIGAS(Gas Safety)
- Mongolia MEM(Gas & Electrical Safety)
- Philippine MEM(Electrical Safety)

Providing Technical Standards

- Vietnam : 15 LPG Technical Standards
 - Indonesia : 9 CNG Technical Standards
 - Mongolia : 4 Natural Gas(City Gas)
- Technical Standards

IV. Performance

Training

- Vietnam : Training in Korea (Gas)
- Vietnam : Diagnosis Field Training
- Vietnam : Training in Korea (Electrical)

Safety Diagnosis

- Vietnam : LPG Terminal QRA
- Indonesia : LPG Terminal QRA
- Mongolia : Power Plants Diagnosis

Social Responsibility

- Mongolia : Visit to Orphanage
- Philippine : Visit to Orphanage
- Indonesia : Visit to Orphanage

Evaluation & Feed-Back

- Mongolia : Appreciation Plaque
- Philippine : Appreciation Plaque
- Indonesia : Appreciation Plaque

A large, faint, light blue wireframe globe is centered in the background of the slide.

V Suggestion

V. Suggestion

Support on **Improvement of Energy** **(Gas & Electrical) Safety Management System**

Contents

Policy Consulting

- Establishment of Energy Safety Legal System
- Specialized Energy Safety Management Knowhow
- Dispatching Technical Experts

Cultivation

- Energy Safety Management Training
- Safety Diagnosis for Gas & Electrical Facility

Facility

- Support on the Energy Safety Facility
- Support on the Energy Infra Facility

- ✓ **Level-Up** of Energy Safety Management
- ✓ **Development** of Energy Industry & **Expansion** of Energy Infra

V. Suggestion

A. Improvement of Energy Safety Legal System

Providing Energy Safety Law based on Beneficiary Country Needs

B. Policy Consulting on Energy Safety Management

Providing Specialized Energy Safety Management Know-how

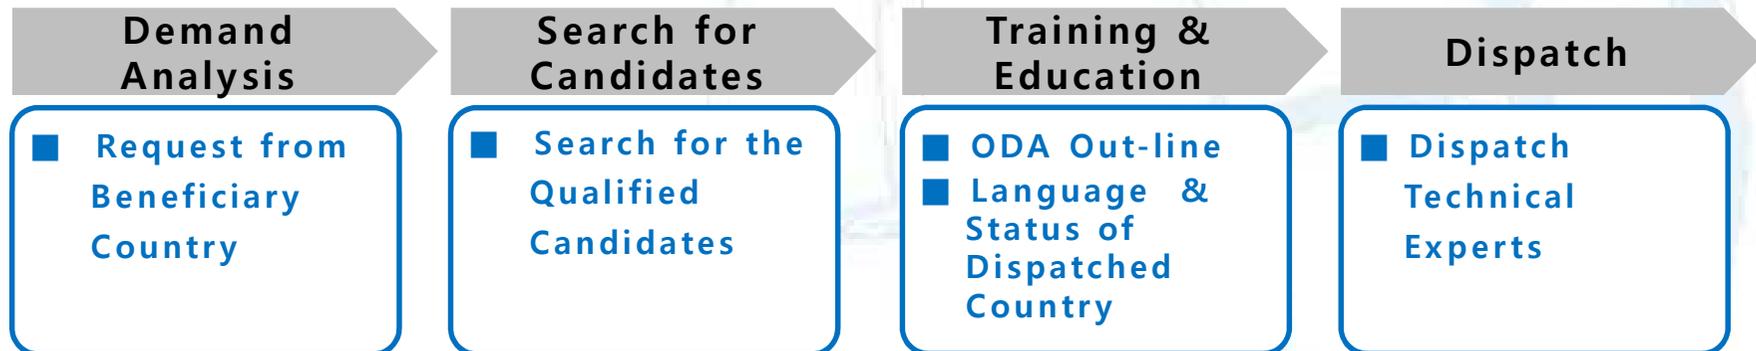

V. Suggestion

C. Dispatching Technical Experts

By sharing Korea advanced Energy Safety Management Know-How

Supporting the Improvement of Energy Safety Management System

Main Activity

- Legal Advice on transferring Energy Safety Law & Technical Standards
- Technical Advice on Gas & Electrical Facility, Appliance, Component
- Energy Safety Training Advice for Government Officer, Safety Manager
- Advice on the Establishment of Training Center & Testing Lab

V. Suggestion

D. Energy Safety Management Training

Enhancing Energy Safety Management Level

through Energy Safety Management Training

E. Safety Diagnosis for Gas & Electrical Facility

Detecting the Risk Factor & Improving the Level

of Safety Management in the Major Gas & Electrical Facility

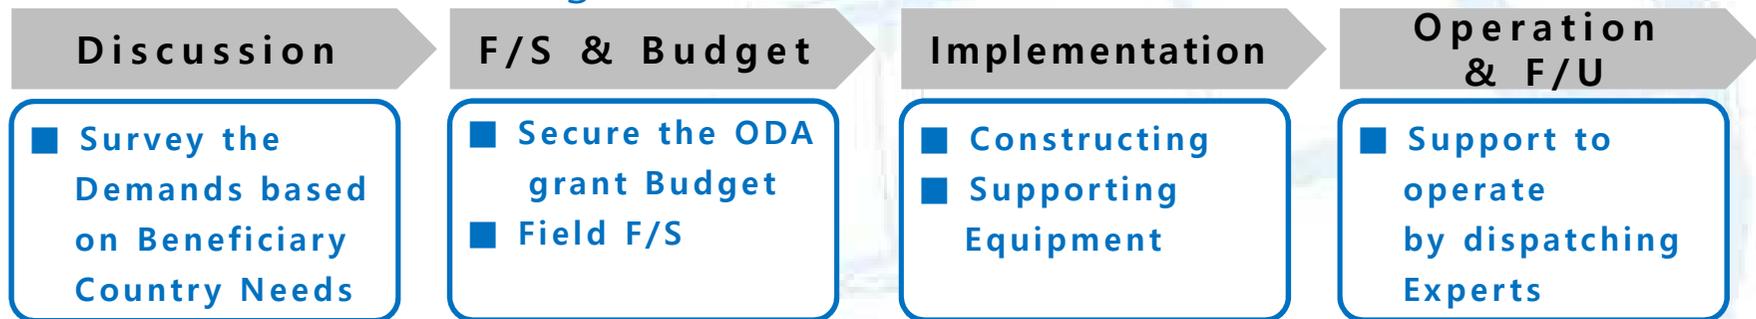

V. Suggestion

F. Support on the Establishment of Energy Safety Facility

Cultivation of Energy Safety Management Experts

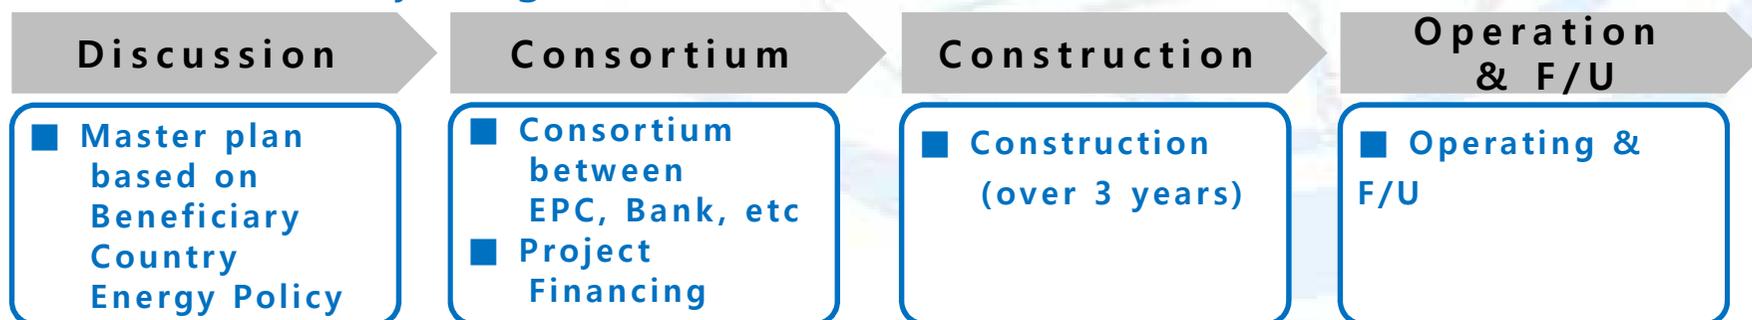

through the Establishment of Facilities

G. Support on the Construction of Energy Infra Facility

Support on the Construction of Energy Infra Facility

by using Korea EDCF Fund, MDB (ADB, etc) Fund

Fédération Internationale pour la Sécurité des Usagers de l'Electricité
International Federation for the Safety of Electricity Users
Federacion Internacional para la Seguridad de los Usuarios de la Electricidad

TERIMA KASIH

תודה
Dankie Gracias
Спасибо شكراً
Köszönjük Merci Takk
Grazie Dziękujemy Dékojame
Ďakujeme Vielen Dank Paldies
Kiitos Täname teid 谢谢
Thank You Tak
感谢您 Obrigado Teşekkür Ederiz
Σας Ευχαριστούμ 감사합니다
Bedankt Дěkujeme vám
ありがとうございます
