

# PRESENTATION OF FASE Electrical Safety Action Fund

France – Marc Maslowski

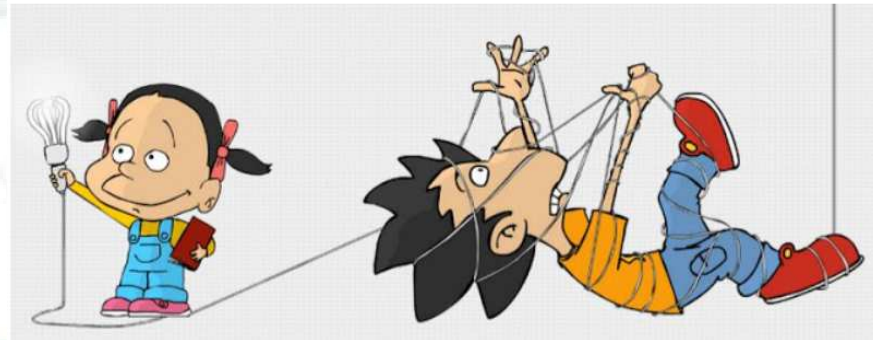

## FASE

- Established in 2011 by Ph. André and J. Wetzel
- Financial Optimization of actions/projects to improve electrical safety
- Type of actions :
  - Information / Training
  - Commitment of sponsorship actions for renovation and improvement of electrical installations
  - Promotion of electrical contractors training

## ACTIONS: INFORMATION AND PUBLIC EDUCATION

- Example: Animated Cartoon “VINZ & LOU” with included study games
- Target: Primary school students
- Goal: Raise awareness about the electrical risks

# ACTIONS: INFORMATION AND PUBLIC EDUCATION

The screenshot shows a website interface with a light yellow background. On the left, there are two dark blue filter boxes. The first is labeled 'FORMAT' and contains three items: 'Parcours (0)', 'Vidéos (0)', and 'Activités (1)'. Below it is a 'Décocher' link. The second box is labeled 'MOTS-CLÉS' and also has a 'Décocher' link. To the right of these filters is a section titled 'LES ACTIVITÉS' with a small cube icon. Below this title is a large blue rectangular graphic. The graphic features the text 'Vinz et Lou' in a stylized font, followed by 'se mettent au courant' in a simpler font. Below the text is a cartoon illustration of a girl holding a glowing lightbulb and a boy hanging from a wire. At the bottom of the graphic, it says 'Vinz et Lou et les risques électriques'. Below the graphic is a 'LES PARTENAIRES' section with logos for 'Gares & Connexions' and 'FASE Fonds d'Action pour la Sécurité Electrique'. At the bottom right of the page is a small cartoon illustration of three characters. Below the partners section is a 'LE COMITÉ SCIENTIFIQUE' section.

Fédération Internationale pour la Sécurité des Usagers de l'Electricité  
International Federation for the Safety of Electricity Users  
Federacion Internacional para la Seguridad de los Usuarios de la Electricidad

- Growing up
- Saving lives

# ACTIONS: INFORMATION AND PUBLIC EDUCATION

**Activity 1 :**  
**What is the use of electricity ?**

 **Saving lives**

At the radiologist office, at the dentist office, at the ophthalmologist office, several devices used by these doctors are operated by electrical power. It is the same at the hospital, with the equipment of operating rooms or incubators used for small babies
