## The Alperklinas Program

To explore Areas that have not Been powered by electricity and encouraging government to accelerate power grids construction, including achieving electrification Ratio.

We have been doing this in several areas since 2014 and has been applied in some areas.

To socialize electricity lost, and consumer protection by doing seminar, workshop, and social media.

Reporting violation of laws and regulations regarding electricity or to the international institution and electricity consumer protection.

Accompany and advocating the consumer, if they have violation laws issues regarding consumer protection.
