Seminar – 07 and 08 October 2026

In-person expert seminar

Title - Fire safe homes in a green Europe: How to keep up with rapid technological and social changes

Date - November 18, 9.30-15.30 CET, L42 Centre, Brussels

Moderator - Prof. Wojciech Wegrzynski, ITB Institute, President of SFPE, fire safety blogger *Fire Science Show*

Core idea - Innovation is transforming Europe's buildings and societies faster than fire safety frameworks can adapt. **From solar panels and batteries** to aging populations, smaller households, remote work, and **energy poverty**, fire risks are evolving

Seminar ask - How can fire safety strategy, design, and governance keep pace with both technological and social innovation?

Objectives

- Explore emerging fire risks from innovation in buildings and **energy systems**
- Address social transformations affecting fire safety
- Connect fire safety with EU policies on housing and **energy transition**
- Identify policy/strategical, regulatory, and research priorities
- Develop message to be presented for the policy makers during the HLD in the EP

High-level political discussion in the EP

Title - High Level Political Discussion – this year title for a discussion, e.g. *Safer Homes for Europeans: Integrating Fire Safety into EU Housing Policy*

Date - November 18, 18.00-20.00 CET

Format - 2h dinner debate in European Parliament (video recorded)

Host MEP - Ciaran Mullooly (Renew Europe, Ireland), vice chair of the HOUS Committee

Cohosting MEPs - Alicia Homs Ginel (S&D, Spain), Adam Jarubas (EPP, Poland) TBC

Moderator - Ciaran Cuffe

EC participation - DG ENER, DG GROW, DG JRC

Objectives

- promote fire safety as a fundamental pillar of EU housing policy
- explore how fire risks intersect with energy poverty, aging infrastructure, and demographic vulnerabilities
- demonstrate the need to integrate fire safety into energy transition policies (Renov. Wave, EPBD, Green Deal)
- encourage stronger EU coordination on fire data, research, inspection regimes, and professional competencies
